1 (c) Description of Equipment

Tetra Pak A1 1000 for TWA

Get more from less
Tetra Pak® A1 filling machine for Tetra Wedge® Aseptic enables aseptic production of juice, nectar, still drinks, tea and milk drinks. The machine's high production capacity coupled with low investment costs makes it a very cost-efficient aseptic packaging system.

The Tetra Pak® A1 filling machine produces Tetra Wedge® Aseptic packages in size 200 ml at a capacity of 11 300 packages/hour

Tetra Pak Straw Applicator 30 0400 TWA

Apply any straw you like!
Tetra Pak® Straw Applicator 30 by Tetra Pak is a platform with different modules to cover the different straws and packages with a pre-punched hole in the Tetra Pak® portfolio. The Tetra Pak® Operator Panel and the easy access to essential working parts contribute to make this machine easy to operate.

Conveyor System

The Package Conveyor, by Tetra Pak, is a conveyor system designed for high chain speeds, while still giving the packages an easy ride from the filling machine to each distribution machine in every packaging line.
